### **DETAILED ACTION**

This application is in condition for allowance except for the following formal matters:

#### ***Drawings***

Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### ***Claim Objections***

Claims 1-15 are objected to because of the following informalities:

1) Claim 1, line 3 and claim 6, line 3, the variable "N" should be identified.

Applicant should put the phrase "wherein N is any integer > 0".

2) Claims 2-5,7-15 are objected as being depended on an objected claim.

***Allowable Subject Matter***

Claims 1-15 are allowed.

Prior arts of record do not disclose a system for determining propagation characteristics of a photonic structure having a transverse N-fold symmetry. The apparatus comprises: a numerical analyzer to develop an angularly averaged indexed profile for said photonic structure; and a principal corrector to employ details of said photonic structure and homogenization expansion to obtain effective refractive indices of modes of said photonic structure which structurally arranged and functionally operated as claimed in claim 1,6.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
